

EXPERIENCE • COMMITMENT • INTEGRITY

# MED-EX

## MEDICAL EXTRUDERS

An extruder lineup designed specifically for the medical market.

**MULTIPLE CHOICES. NO WRONG ANSWER.**

## MED-EX<sub>ELITE</sub>

### FEATURES INCLUDE

- Easy To Swap Barrels (.5 in. - 1 in.)
- Stainless Steel Surfaces
- Wipe Down Design
- Easy Open & Close Toggle Clamps
- High Temp Capabilities Up To 900°F
- Corrosion Resistant Design Options
- Precision Servo Motor
- Clean Wire Management
- Powered Adjustment Along Center Line
- Virtual Pressure Measurement
- Easy Air, Water, & Exhaust Access
- ProControl Medical Touch Screen Controls Option
- Arc Flash NFPA 70E Compliant (Electrical Safety)

## MED-EX<sub>FLEX</sub>

### FEATURES INCLUDE

- Swappable Barrels (.5 in. - 1 in. or .75 in. - 1.25 in.)
- Easy Open & Close Toggle Clamp
- Precision Servo Motor
- High Temp Capabilities Up To 900°F
- Corrosion Resistant Design Options
- Low Profile Casters With Integral Jacking Pads
- Clean Wire Management
- ProControl Medical Touch Screen Controls Option
- Arc Flash NFPA 70E Compliant (Electrical Safety)

## MED-EX<sub>COMPACT</sub>

### FEATURES INCLUDE

- Slim Panel Design
- Gearless Direct Drive
- Easy Open & Close Toggle Clamp
- High Temp Capabilities Up To 900°F
- Corrosion Resistant Design Options
- Clean Wire Management
- Clear Covered Plug Plate
- ProControl Medical Touch Screen Controls Option
- Low Profile Casters With Integral Jacking Pads
- Arc Flash NFPA 70E Compliant (Electrical Safety)

## MED-EX<sub>CLASSIC</sub>

### FEATURES INCLUDE

- Economical Classic Design
- Easy Open & Close Toggle Clamp
- Base Mounted Cabinet
- Air Or Water Cooled
- ProControl Medical Touch Screen Or Discrete Controls Option

### CONTROLS

#### **ProControl™ Medical**

A comprehensive HMI system to control your entire process. Improve production efficiency and quality with recipe management, data acquisition, reporting, and alarm analytics.

#### **DISCRETE CONTROLS**

Discrete controls tailored to your specifications.

**FEATURES LISTED ARE GENERAL OPTIONS. ALL OF OUR EXTRUDERS CAN BE TAILORED TO YOUR NEEDS. WE BUILD THE MACHINE YOU WANT, WITH THE PERFORMANCE YOU EXPECT, AND BACKED BY OUR FULL SUPPORT!**

## OUR STORY

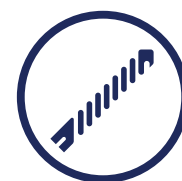

With over 300 years of combined experience, we recognize that we have the collective talent and expertise to design and build a new generation of extruders. Our motivation, integrity, and awareness of customer needs makes our team distinctive. We created a company that establishes honest relationships, makes real commitments, and builds an atmosphere of trust and pride.

"This is a straightforward business. An extruder needs to be reliable, serviceable, and perform well," says Bill Kramer. "The hard part is for the extruder supplier to be open and honest, live up to commitments, always do the right thing, and treat the customer with respect. That's where we're unique. We have no higher agenda or corporate mandate. We truly believe if we do the right thing for our customers, success will follow."

### EXTRUDERS

.5 in - 8 in  
Single-screw  
plastic extruders  
designed to your  
specifications

### SCREWS

High performance  
metering, mixing,  
and barrier screws  
designed in-house  
by Kevin Slusarz

### PARTS

We fully support  
our extruders  
with parts at  
reasonable prices

## CORE VALUES

*Honesty and integrity*

*Strong work ethic*

*Exceeding your expectations*

*Treating others with respect and fairness*

*Commitment to excellence*

## THE US EXTRUDERS PROCESS

### MEET

You'll meet with an experienced sales representative to discuss your needs

### DESIGN

Our engineers will design your extruder to your exact specifications

### TEST

We do a Proof of Performance Test to insure that your machine is ready to run

### SUPPORT

We'll make sure that your extruder is running to your satisfaction

**WOW!**

### SPECS

We'll work directly with you to create the specifications for your personalized extruder

### PRODUCTION

Our highly skilled production team will build your extruder

### DELIVERY

Your extruder will ship and deliver on-time
