

CyberMed NB24k

24" Surgical Grade Computer

Designed for Surgical & Clinical Review Applications

This medical computer offers 4K UHD images surgeons need for ultimate precision when making incisions, and fast response time so that all movements of the instruments are shown without delay.

Medical Grade Certified

Intel Core Processor

The CyberMed NB24k with 4k display comes with the powerful Skylake 6th generation Intel Core i7 processor series and customizable DDR4 RAM.

Antimicrobial

The unique design of the CyberMed NB24k includes an antimicrobial compound injected into the plastic molding, reducing the spread of harmful microbes.

IEC/UL 60601-1 Certified

It has been engineered to meet the stringent 60601-1 electrical and radiation safety standards required for near patient use.

IP65 Rated

The sealed front bezel is IP65 certified, so it will stand up to chemical disinfectants and makes it easy for medical professionals to clean.

Plug In or Go Mobile

This medical computer operates on either AC power or three hot swap batteries that last for up to 16 hours. Ideal for lighter, non-powered medical carts as a turnkey solution for greater mobility without the need to tether the unit to a power outlet to charge.

Imprivata SSO Certified

The CyberMed NB24k can be customized with internal RFID or biometric readers that are natively Imprivata certified. There is no longer a need to attach external dongles to your computer, reducing the clutter and freeing up ports.

Built with Customization & Compatibility in Mind

- Windows 7, 8, 10 or Linux
- Optional 5.0 Megapixel Webcam
- 75/100mm VESA mounting
- 4 x USB 3.0 ports, 2 x USB 2.0 Ports
- HDMI In / Out
- 2 x DDR4 1866 / 2133 MHz SO-DIMM, Max 32GB
- 6th Generation Intel Skylake i5 / i7
- Triple Lithium-Ion Hot Swap Batteries
- RS232 / 422 / 485 Serial Port, (Up to 4 COM Ports)
- Optional CAC Smart Card, RFID, Biometric Readers
