CyberMed Rx

10.1" Rugged Medical Tablet

World's First & Only Fully Antimicrobial Medical Tablet

Drop tested and in compliance with military standards, this rugged medical tablet can withstand daily abuse whether in a hospital or in a field setting. Constructed with industrial grade components, the CyberMed Rx can withstand virtually any environment.

Medical Grade Certified

Windows OS

The CyberMed Rx is compatible with Windows 7, 8, or 10 and is equipped with a lightning fast Intel core i5/i7processor with vPro.

Antimicrobial

The unique design of the CyberMed Rx includes an antimicrobial compound injected into the plastic molding. It is also the only tablet in the world with an antimicrobial touch glass.

IEC/UL 60601-1 Certified

This tablet has been engineered to meet the stringent 60601-1 electrical and radiation safety standards required for near patient use.

IP65 Rated

The sealed front bezel is IP65 certified, so it will stand up to chemical disinfectants and makes it easy for medical professionals to clean.

Dual Hot Swap Batteries

Hot swap battery technology means the CyberMed Rx has a virtually limitless battery life. As one battery drains, simply remove it and replace it with a fully charged replacement. Never worry about plugging the unit in to charge again.

Imprivata SSO Certified

The CyberMed Rx can be customized with internal RFID or biometric readers that are natively Imprivata certified. There is no longer a need to attach external dongles to your device, reducing clutter and freeing up ports.

Built with Customization & Compatibility in Mind
